### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 37, line 1, "method" has been changed to process.

In claim 54, line 1, "method" has been changed to process.

In claim 58, line 1, "installation" has been changed to system.

In claim 61, line 1, "installation" has been changed to system.

2. The following is an examiner's statement of reasons for allowance:

While it is known in the art to provide a process for treating excess sludge from a biological treatment system comprising biologically treating water or wastewater and producing excess sludge, solubilizing the sludge, and further biologically treating the sludge (see, for example, US Pat No 4,370,235 or US Pat No 4,915,840), in the examiner's opinion the prior art fails to teach or fairly suggest subjecting the solubilized sludge to a liquid - solid separation process to separate the solubilized sludge into a liquid fraction and a solid fraction prior to the further biological treatment and solubilizing the solid fraction of the solubilized sludge. The instant invention provides the advantages provided by applicant on page 18, lines 11-14 of the instant specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
